

I'M AN IBCFPRS DIPLOMATE

IBCFPRS

International Board for Certification
in Facial Plastic and Reconstructive Surgery

I'm proud to state that I am an IBCFPRS diplomate—that means that I am a surgeon who has completed rigorous certification standards by the International Board for Certification in Facial Plastic and Reconstructive Surgery (IBCFPRS). Those standards include completion of an approved residency as well as certification in Otolaryngology/Head and Neck Surgery or Plastic Surgery. I've proved my facial plastic surgery expertise by submitting over 100 operative reports in facial plastic and reconstructive surgery, passed a two-day written and oral examination in the specialty, and attained the appropriate licensure to practice facial plastic and reconstructive surgery. IBCFPRS surgeons have achieved comprehensive training in the specialty and are recognized experts in the field of facial plastic and reconstructive surgery.
